

# Open Development Initiative Structure

# Open Development Architecture

# CKAN

- Open Source System
- Format agnostic (interoperable)
- World's Most commonly used open data system: governments, libraries, IOs, NGOs and now ODM
- Gold standard of open data management
- Scalable, constantly improved and upgraded

# CKAN

- Natively supports best practices for open data
- Inherently supports networked crowd-sourcing to specified standards (e.g. good metadata)
- Link to CKAN sample: [data.  
opendevopmentmekong.net/dataset/mekong-dams-2014-nguyen](https://data.opendevopmentmekong.net/dataset/mekong-dams-2014-nguyen)

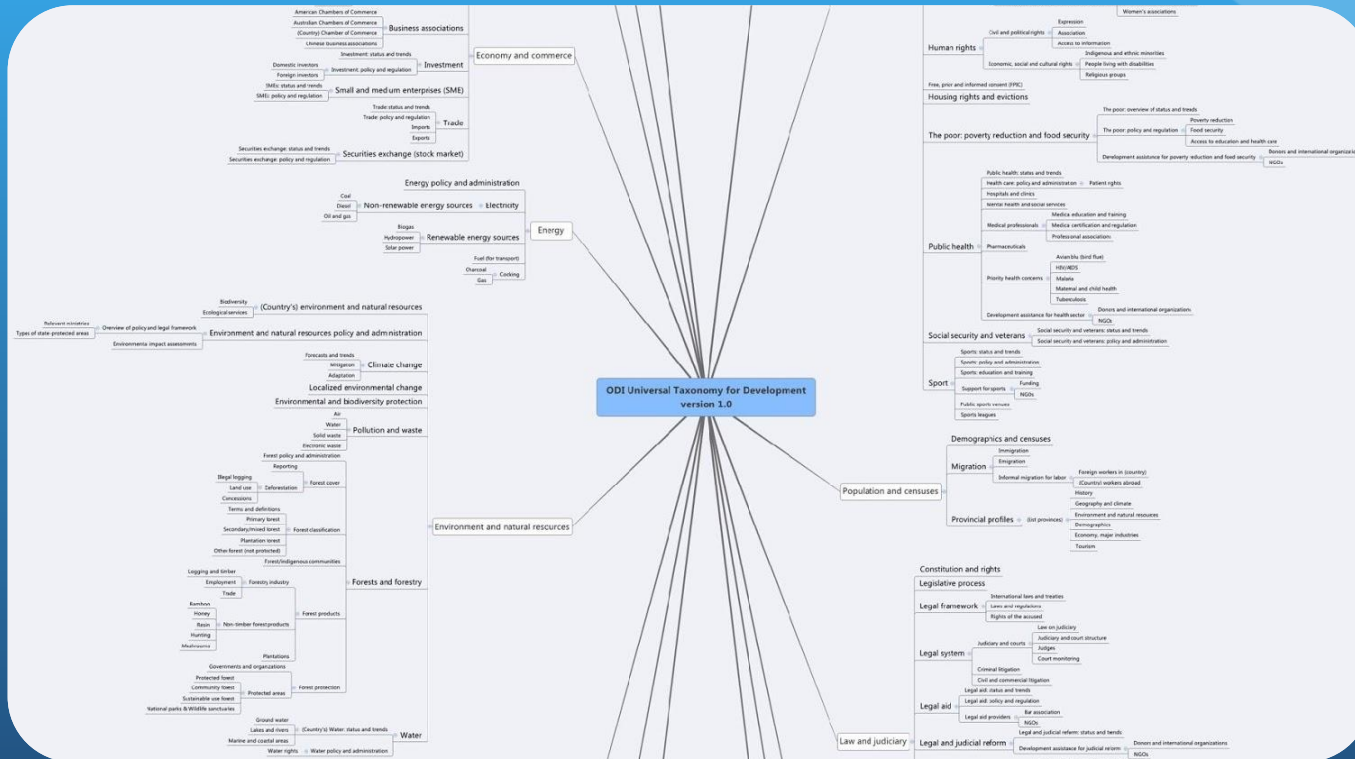

# JEO Front End

- Customized JEO theme, providing enhanced capacity for mapping display
- Front end still in private beta while we are populating the CKAN database
- Open for beta testing before end of February

# ODI's Universal Taxonomy

- Comprehensive development taxonomy, allows for capture of wide range of information
- Facilitates a more intuitive experience
- Also provides structure for groups collaborating on information sharing.

# Detailed View of Taxonomy

Link to taxonomy 1.0: <https://drive.google.com/folderview?id=0B41Plq4WPdXtR0lfa2pHdGNoTEE&usp=sharing>

# Open Development Mekong Wiki

- The central resource and guide for all partners part of the OD network
- Living comprehensive resource that covers:
  - How to upload information into CKAN
  - How to properly cite, describe and structure data (Metadata)
  - How to generate content
  - Collaborate on translations
  - ...and much more
- Link: <http://wiki.opendevlopmentmekong.net/start>

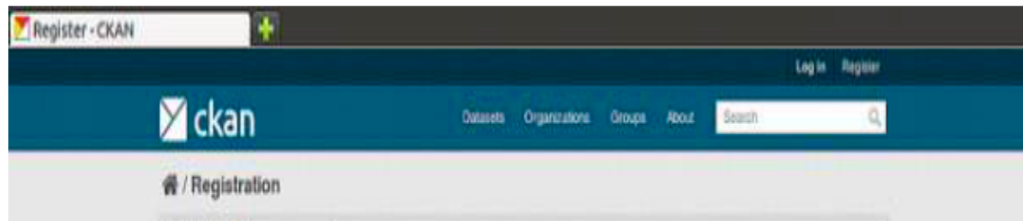

# Content Generation Guide

Primary resource for any users adding content to the system:

[http://wiki.opendevdevelopmentmekong.net/content\\_generation](http://wiki.opendevdevelopmentmekong.net/content_generation)

- **Username** – choose a username using only letters, numbers, - and \_ characters. For example, “jbloggs” or “joe\_bloggs93”.
- **Full name** – to be displayed on your user profile
- **E-mail address** – this will not be visible to other users
- **Password** – enter the same password in both boxes

# Content Generation by ODI Partners

## MOUs with country-level partners to:

- Build country-level content and data archive on CKAN
- Edit country-level website
- Managing country-level users and contributors

# Editorial Process (by website)

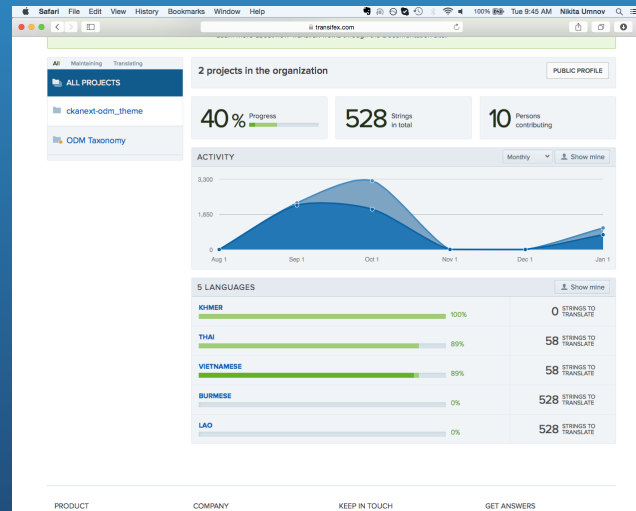

- Common editorial standards
- News summary items aggregated and archived automatically, vetted and translated (at country level); tagged in all languages
- News and other relevant information geolocated
- Work with relevant experts to develop objective briefings and data visualizations to required standards

# Licensing

- ODM has a wiki on licensing for material whose rights are fully reserved, partially reserved or public See Here: <http://wiki.opendevelopmentmekong.net/licensing>
- Covering relevant terminology (*warranty, public domain* etc)
- Other relevant resources

# Translation

- Comprehensive guide for translation:  
[http://wiki.opendevopmentmekong.net/collaborative\\_translation](http://wiki.opendevopmentmekong.net/collaborative_translation)
- Web-based translation platform: Transifex.

# Regional Team to Assist Partners

- Project Manager - Cambodia
- Regional IT Manager—Vietnam
- IT Development Advisor—Thailand
- Content Coordinators and Developers - Cambodia ++
